EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Claims 12-17, 27-29 and 33 have been cancelled.

Note: These claims were drawn to an invention and a species non-elected without traverse in the response filed 27 November 2002.

Allowable Subject Matter

2. Claims 34-35, 37-49, 51-62 and 65-66 are allowed.

3. The following is an examiner's statement of reasons for allowance:

Claims 34-35, 37-49, 51-62 and 65-66 are allowable over the prior art for at least the reason that the prior art fails to teach and/or suggest a phase plate in conjunction with a distributed aperture system wherein the phase plate is configured to correct sine magnification error of the electromagnetic radiation over the field of view of the system. Correction of sine magnification error is taken to imply those methods and arrangements for the corrector plate as disclosed in order to differentiate from known examples of conventional phase plates found in the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably
